

BOY, AGED NINE, SAID TO HAVE ROBBED HOUSE

Probation Officer Purcell Discovers Parties Who Robbed E. High St. Home

BOYS CONFESS TO PROBATION OFFICER

Transcript Filed in Common Pleas; Other Notes From The Court House

Late Wednesday afternoon, Probation Officer Purcell discovered the identity of the robbers who broke into an East High street residence Tuesday afternoon.

The robbers are two little boys each nine years old. The boys confessed to Probation Officer Purcell that they had entered the home and had stolen the revolvers. They delivered up the weapons, which were returned to the owner.

One of the boys further confessed that he had entered the same home on a previous occasion and had attempted to get away with something, but had discovered it was too large to remove in the daytime. Accordingly the boy is said to have hidden the article in a closet and intended to return later and, with the assistance of the other boy, remove it from the house. Probation Officer Purcell found the article in the question concealed in a closet in the home.

After the boys had returned the stolen revolvers, they were placed on probation and are to make a report to Probation Officer Purcell.

HIWATHA SCHOOL IS TO CHANGE ITS BOOKS

Pupils Hereafter To Study Texts Adopted By County School Board

County School Supt. J. C. Marriott announced Thursday that the textbooks to be used at the Hiwatha school with the opening of the session this fall will be those of the county adopted list. The books used in the Mt. Vernon schools will not be used. Prior to the opening of the Hiwatha school, the pupils attended the Mt. Vernon city schools. The new school building was completed and occupied by the school in the middle of the school year. That there should be no break in the school work, the pupils were permitted to continue the use of the textbooks with which they had started, until the close of the school year.

With the start of the new school year they will be required to conform to the course of study prescribed by the county board.

Notwithstanding that the chautauqua was not a success financially this year, enough guarantees were received to assure another chautauqua next year. The real value of a chautauqua cannot be estimated in dollars and cents and the real value to a community is very much underestimated by many persons. It is a valuable asset to any community.
